

About Tech Collective

[Mission](#) | [Anchor & Enterprise Members](#) | [Affiliates & Partners](#) | [About Bioscience & IT](#)

Tech Collective is Rhode Island's Technology Industry Association. We foster the growth, innovation, and economic momentum of Rhode Island's high-tech industries and workforce. Collaborating with local and national government, industry, and academic partners, Tech Collective programs directly impact Rhode Island.

As a 501(c)3 non-profit organization, Tech Collective derives its funding from membership, fundraising, and grant awards. Since its transition from the Rhode Island Technology Council (RITEC) in 2004, Tech Collective has received more than \$12M in federal, state, and private grant funding. Awards and funding include Governor's Workforce Board RI Industry Partnerships, Real Jobs RI, Ready to Work/ Tech Force RI, and national recognition with the state of Rhode Island from President Obama's TechHire initiative.

Our Mission

Tech Collective's mission is to inspire, engage, educate and employ a burgeoning technological and Knowledge Economy in Rhode Island through:

- Uniting industry, government and education

- Raising technology awareness and participation

- Growing the economy through a high-skill, high-wage workforce pipeline with ample employment opportunities

- Developing people personally and professionally

- Promoting strong, proactive, collaborative and leadership-driven technology industries

TechHire Rhode Island TechHire is currently comprised of 50 states, cities, and regions across the country who, through civic aggregation, are working to build an ecosystem where governments, employers, training providers and other stakeholders work together in collective action to achieve a unified goal – developing a pipeline of diverse, non-traditional talent to meet employers' rapidly growing IT demands.

TechHire RI is creating opportunities for employees to advance themselves in the tech field. By providing job training to current employees in the workforce, it can be assured that Rhode Island's workforce is on the cutting edge of the industry, and will be for years to come. Tech Collective has also built relationships with:

About Information Technology Information Technology (IT) is the field of work dealing with computers and technology. The primary goal of IT companies and divisions is to provide fast, easy, and efficient means of internal and external communication, via numerous technology products. There are four main sectors of IT, each of which are comprised of several subsectors and specialty areas that professionals can choose to focus on. They are: Network Systems, Information Support and Services, Programming and Software Development, and Interactive Media.
