Individual Recipients – outstanding bioscience professional, educator, or entrepreneur.

Dr. John D. Jarrell, PhD, PE – President, Materials Science Associates; Founder, BioIntraface, Inc.

"I want to be at the center of a Medtech Innovation hub, here at Quonset. My vision is to enable passionate engineers and scientists to apply knowledge and pursue innovation." [Full Profile](#)

Dr. Greg Paquette – Professor and Director of Biotechnology Programs, University of Rhode Island

“I have thoroughly enjoyed playing a key role in the development of programs to assure adequate workforce for the Rhode Island biosciences industry. As the industry expands and evolves, the need for enhanced and new programs will become apparent. I look forward to continuing to work in this exciting and dynamic industry.” [Full Profile](#)

Megan L. Ranney, MD MPH – Director, Emergency Digital Health Innovation program; Assistant Professor, Department of Emergency Medicine, Rhode Island Hospital / Alpert Medical School, Brown University

“I founded EDHI in recognition of the lack of evidence-based, effective digital health solutions for the emergency department setting. I have created this program from scratch, organized collaborations among a wide group of disparate experts, and have initiated a variety of activities. I consider it a critical scientific service, with the potential to put Rhode Island’s healthcare system at the forefront of cutting edge, evidence-based care.” [Full Profile](#)

Community Leader Recipient – individual, organization, or company advancing the bioscience industry forward through advocacy, education/mentorship, workforce development, youth engagement, and/or leadership. David R. Vito – Assistant Professor of Biology, Community College of Rhode Island; Coordinator and Co-PI, Amgen Biotech Experience Program, University of Rhode Island“I am very fortunate to have spent most of my life doing what I like best; immersed in education, thoroughly committed to advancing the biological sciences. I have strived to instill in my students an appreciation for life” [Full Profile](#)

Did you know? Tech Collective members saved an average of 48% off lab supplies, equipment, chemicals, glassware, apparel, and services? [Learn more: TC/VWR Affinity Savings](#)

AboutTech Collective’s 2014 Rhode Island Bioscience Awards honor those who are innovating and impacting our industry. These are the scientists, researchers, thinkers, and culture changers challenging the status quo. These are the innovations, technologies and break-throughs literally changing worlds and changing lives. From laboratories to production, from concept to cultivation, from individual contributor to community leader, these industry champions are strengthening the growth and influence of Rhode Island’s bioscience sectors locally and globally.[Download/Share Awards Overview](#)
